(In the space provided below, please explain in detail why the 35 U.S.C. 371(c) elements (or continuing U.S. application) were not timely filed.)

The time I was first notified by my patent attorney for the Preliminary Examination Report (which was received by the law office on Sept. 9, 2004) and the official publication of my PCT application (which was published in October of 2003 and was received by the law office on Nov. 1, 2003) was on November 29, 2004 — It is already one month passed the 30 month deadline required by PCT Rule.

I have two email account open to keep communication with the attorney although one of them is shut off by August this year, but I never receive any notice about the above important events until Nov. 29, 2004

I now decide to submit the National stage documents and proceed with your authority directly on my own.
